Hybrid cross-reference file, page 1.
Lectern test corpus. This page exists so that the incremental writer has real text to highlight.
The quick brown fox jumps over the lazy dog while the reader keeps its place on the page.
Annotations are appended as an incremental update; the original bytes must stay untouched.
Forms, signatures and earlier revisions must survive a save without a single changed byte.

Hybrid cross-reference file, page 2.
Lectern test corpus. This page exists so that the incremental writer has real text to highlight.
The quick brown fox jumps over the lazy dog while the reader keeps its place on the page.
Annotations are appended as an incremental update; the original bytes must stay untouched.
Forms, signatures and earlier revisions must survive a save without a single changed byte.
